

MINIMIZING WORDS TO GET RID OF!

I'm not on your level but..
It's not that important but..
I'm sorry but I have a question..
I'm sorry but I don't understand..
I'm sorry but I wanted to add..
I'm not an expert but I think..
I'm sorry but I can't ...
I just thought..
I may be wrong, but..
I am 90% sure, butI think ... I mean ...
Sorry for bothering you / taking your time..
Just following up on
Does that make sense?
I'm not trying to step on your toes, but...I feel
I know you are probably busy but....
Here are my two cents, if you are interested?
You might find this stupid but I think/feel...
if possible...
I didn't mean to....
Just wanted to check in....
Forgive me...
Apologies for asking....
Correct me if I'm wrong...
Maybe we could...
Am I making sense?
I stand to be corrected....
If you don't mind...
If I may, my two cents....
Just...
Maybe...

Maximize not Minimize.
